- \* The course will take place with a minimum of 6 participants.

The course is being certified as a so called prevention course by „Zentrale Prüfstelle für Prävention“ and accordingly will definitely be supported or even fully reimbursed by official health insurances (depending on the insurance company) as a regular „presencecourse“. According to an Informational that was published by ZPP on 25.02.2021, support/reimbursement will apply as well to online/hybridcourses as long as restrictions to presenceclasse result out of „Coronarestrictions“. On average, insurance companies expect a performance of around 80% in order to authorize reimbursement.
